MACON VALLEY
Nursing & Rehabilitation Center

Compassionate Therapy, Close to Home in Franklin.

Restoring Strength. Rebuilding Confidence. Returning to What Matters.

At Macon Valley Nursing & Rehabilitation Center, our on-site therapy team through *Principle Therapy Services* delivers skilled physical, occupational, and speech therapy to support recovery and promote independence—all within the comfort of our facility.

Team Spotlight

Lindsay, M.S., CCC-SLP

Lindsay is a speech-language pathologist with six years of experience specializing in long-term care and geriatric rehabilitation. Holding both a bachelor's and master's degree in her field from Western Carolina University, she has a special interest in dementia care and dysphagia management. Her passion for helping others began as a child visiting and volunteering in care facilities.

"I believe all things we do, big and small, for our patients contribute to their dignity, independence, and overall quality of life—because every step forward, no mater how small, makes a difference." "I am proud to be part of an exceptional therapy team, where collaboration and shared dedication ensure that each patient receives the highest quality care."
